3. We had anticipated that the viewgraphs, a part of our research paper which has encountered some production delays, would have been ready in time for a normal mode of transmittal, but the paper is still in printing and a special run was made by Graphics to produce the viewgraphs which just became available at noon today.

4. Our mode of transportation will be by air [REDACTED] to Dayton and I shall be accompanied by [REDACTED]. We will go directly to the airport from the Agency.
